## TRANSLATING RESEARCH CAREERS

DKFZ Clinician Scientist Program

## CONSIDERING A CAREER AS A CLINICIAN SCIENTIST?

The DKFZ in Heidelberg belongs to the leading cancer research centers world-wide.

You are a physician conducting specialized medical training and wish to enhance your career? Then team up with a strong partner to support your translational research ambitions and take advantage of tailored opportunities to gain basic and translational cancer research experience in a world-class scientific setting.

- Expand your research experience and complement your clinical training
- Benefit from protected time for research
- Extend your own scientific network
- Participate in training courses and workshops for clinician scientists
- Profit from dual-mentorship by scientific and clinical mentors

Use this unique opportunity to actively develop your long-term career perspectives as a clinician scientist.
